

International Trade Fair of Energetics, Electrotechnics, Electronics

ENERGY CASSOVIA EXPO SLOVAKIA, Košice - Steel arena 19.-20.október 2022

organizer: agentúra Bocatius s.r.o.
Čermelská 1, 04001 Košice,
tel.: 0421 903340693
www.bocatius.sk
bocatius1@pobox.sk

partnership:

Fakulta elektrotechniky a informatiky Technickej univerzity v Košiciach

NOMENCLATURE

1. Electroenergetics – Power Generation, Transfer, and Distribution
 - 1.1. Manufacturers, and Distributors of Electrical Energy
 - 1.2. Power Generation
 - 1.3. Power Accumulation
 - 1.4. Power Transfer
 - 1.5. Services for Power Generation, Transfer, and Distribution
2. Conductors and Cables
 - 2.1. Power Cables
 - 2.2. Accessories for Cables and Cable Installation
 - 2.3. Low Voltage Conductors and Cables
 - 2.4. Conductors for Electrotechnical Winding
 - 2.5. Conductors and Cables for Special Applications
 - 2.6. Superconducting Materials
 - 2.7. Other Conductor and Cables
3. Electric Installation, Building Management, and Security Systems
 - 3.1. Electric Installation Technologies
 - 3.2. Building Automation and Building Management System
 - 3.3. Communication and Information Systems of Buildings
 - 3.4. Security and Identification Systems
 - 3.5. Smart City and City Management
 - 3.6. Other Electrical and Electronic Equipment for Buildings
4. Lighting Devices and Systems
 - 4.1. Light Sources
 - 4.2. Lighting, Lighting Systems, Lamps
 - 4.3. Light Source, Lighting Fixtures, and Illumination Systems Accessories
 - 4.4. Services in Lighting
 - 4.5. Other Lighting Technology
5. Electro Thermal Technology
 - 5.1. Appliances for Building Heating and Cooling Systems
 - 5.2. Industrial Appliances for Heating and Water Heating
 - 5.3. Components and Accessories
 - 5.4. Service and Repairs of Electrothermal Equipment
6. Drives, Electromobility, Traffic Management and Telematics
 - 6.1. Drives and Electric Motors
 - 6.2. Operating, Protecting Devices, and Regulators
 - 6.3. Power Systems
 - 6.4. Electromobility
 - 6.5. Transport Systems and Telematics
 - 6.6. Electrical and Electronic Equipment for Vehicles
7. Electronic Components and Modules
 - 7.1. Semiconductor Components and Circuits
 - 7.2. Optical, Photonic Components, and Modules
 - 7.3. Passive Components
 - 7.4. Electromechanical Components
 - 7.5. Mechanical, Interconnecting, and Other Components for Electronics
 - 7.6. Displays and Monitors
 - 7.7. Printed Circuit Boards – PCB'S and Mounting Accessories
 - 7.8. Organic and Printed Electronics
 - 7.9. Software for Development
 - 7.10. SMD Technologies
 - 7.11. Assemblies and Subsystems
 - 7.12. Embedded Systems, Micro and Nano Systems
 - 7.13. CAD, CAM, CIM for Electronic Components, and Modules
 - 7.14. Materials, Technologies, Electrochemistry
 - 7.15. Electronics Cleaning
 - 7.16. Other Electronic Components and Modules
8. Information and Communication Technology
 - 8.1. Radio-Communication Technologies
 - 8.2. Network Technologies
 - 8.3. Hardware
 - 8.4. Software
 - 8.5. Internet of Things (IoT)
9. Measuring and Testing Devices
 - 9.1. Universal Devices for Electrical Quantities Measuring
 - 9.2. Laboratory Devices for Electrical Quantities Measuring
 - 9.3. Operation Devices for Electrical Quantities Measuring
 - 9.4. Measuring Devices for Power Transmission Systems
 - 9.5. Measuring Converters for Electric Quantities Measuring
 - 9.6. Devices for Non-Electrical Quantities Measuring
 - 9.7. Measuring Technologies for Potentially Explosive Atmosphere
 - 9.8. Registration Devices, Recorders, Data Displays
 - 9.9. Measuring Systems, Remote Measuring, and Processing of Measured Data
 - 9.10. Devices, Software for Meteorology, Virtual Instrumentation, Testing, and Quality Control
 - 9.11. Accessories and Components for Measuring Technologies
 - 9.12. Other Measuring and Testing Devices
10. Automation, Control, and Regulation
 - 10.1. Sensing and Control Technology
 - 10.2. Identification and Camera Systems in Industry
 - 10.3. Control Technology
 - 10.4. Software for Industrial Automation
 - 10.5. robots, Automatic Machines, and Manipulators
 - 10.6. Technological Process Control, System Integration
 - 10.7. Other Components and Equipment for Automation
 - 10.8. Industrial Marking
 - 10.9. 3D Printing
 - 10.10. Other Automation, Control, and Regulating Technique
11. Production Facilities, Components for Electrical Engineering, and Electronics
 - 11.1. Production Facilities
 - 11.2. Components for Electrotechnics and Electronics
 - 11.3. Other Production Facilities and Components for Electrical Industry
12. Lasers, Photonics, and Fine Mechanics
 - 12.1. Optics, and Industry Technologies for Optics
 - 12.2. Fibre Optics
 - 12.3. Laser Technologies
 - 12.4. Optical Systems
 - 12.5. Optics and Photonics Applications
 - 12.6. Materials for Optics and Phonics
 - 12.7. Optical, Photonic, Optomechanical Appliances, and Equipment
13. Tools, Accessories, and Equipment
 - 13.1. Tools and Equipment
 - 13.2. Work and Protective Equipment
 - 13.3. Vehicles
 - 13.4. ESD Products – Protection Against Electrostatic Discharge
 - 13.5. Other Tools, Accessories, Equipment for Electronics, and Electrotechnics
14. Services, Education, Media, and Institutions
 - 14.1. Services in Electrical Industry
 - 14.2. Commerce
 - 14.3. Education, Science, and Research
 - 14.4. Medias and Institutions
 - 14.5. Other Services
